their native country. About the year 1808, a South Carolina rice planter purchased and sent to his plantation a gang of slaves, among whom was a man of a slender frame and delicate constitution, who was not able to labor in the field, or had not the disposition to do so. His health failing, he was considered of no value and disregarded. At length he strolled off, and wandering from plantation to plantation, reached Fayetteville, was taken up as a runaway and got in jail, where he remained some time. OLD HORSE.

OLD HORSE.
To the Editor of the Annals of sporting.
Lydiate Cottage, July 8th, 1822.
On Tuesday, the 11th of June, in company with Mr. Charles Town, the printer, and Mr. Lucas, veterinary surgeon, both of Liverpool, I visited Latchford-lock, about a mile distant from Warrington, for the sole purpose of seeing a horse which has actually attained the surprising age of 63 years, being now in his 64th. The horse belongs to the Mersey and Irwell Navigation Company; and, from the politeness of one of the proprietors, W. animal, but of learning the following particulars relative to him: He was bred by Mr. Edward Robinson, of young, and, indeed, till he reached the age of 50, he manifested an exdeavour to set before them examples tremely vicious disposition, not only of sobriety and good conduct; to in- to human beings, but to dogs or any culcate obedience to their teachers, other animals that happened to oppose with prince Moro, and have had sev- the Holy Scriptures; to go with or the dinner hour or other periods, a sheaf."

chance, or otherwise, to be placed in his way. His teeth in front are perfect, but very long; while his bridle-teeth or tusks, after having grown to an unusual length, became half inver-ted, and now describe an uncouth semicircle, convexing towards the up-per jaw. His lower lip is neither so loose, nor so pendulous, as what it is generally seen in very old horses. His eye is very remarkable; it seems differently placed in the socket from those of all other horses which I have observed; and it is, at the same time, so bright and clear, and presents altogether so perfect an appearance, as to afford a strong presumption that his sight is as good as that which is usuals ly found in horses at the age of 12 or 14. Thirty years of his life, it seems, were spent in a gin, and the remainder principally on the Mersey and Irwell navigation, in towing boats. When in full flesh and the vigour of life, he would scarcely have measured, I should suppose, 15 hands. His col-our is what may be called a chesnut dun, which was dappled in earlier life, with cropped ears and one hind foot white. He grazes in summer on the luxuriant pasturage of the meadows, near Warrington, on the banks of the Mersey, and in winter is taken into the stable, and fed on mashes and soft food. He still possesses the use of all his limbs in tolerable perfection, lies down and rises with ease; and when in the meadows, will frequently play, and even gallop, with some young colts, which graze along with him. This extraordinary animal is healthy, and manifests no symptoms

whatever of approaching dissolution. It is generally supposed that no other horse ever attained the age of 64. In the year 1745, when the rebels rein Manchester, which was afterwards, employed in that town, chiefly, I believe, in drawing a milk-cart, for nearly 40 years. The age of this horse was not exactly known; but it was evident he was considerably more than 40 when he died; and, on the score of longevity, may, perhaps, be ranked next to the animal I have just described.

Revival of the Jewish government—Appointment
of a Judge of Israel—Foundation of a new City of a Judge of Isr of Refuge, &c.

It was known at the sale of that beautiful and valuable tract called Grand Island a few miles below this port, in the Niagara River, that it was purchased, in part, by the friends of Major Neah, of New-York, avowedly to offer it as an asylum for his brethren of the Jewish per sussion, who is the other parts of the world are muci oppressed; and it was likewise known that it was intended to erect upon the Island a City called Arrarat We are gratified to perceive, by the documents in this day's Extra, that coupled with that colonization is a declaration of Independence, and the revival of the Jew-Government under the protection of ish the United States, after dispersion of that ancient and wealthy people, for nearly 2000 years—and the appointment of Mr. Noah as first Judge. It was intended, pursuant to public notice, to celebrate the event on the Island, and a flag staff was erected for the Grand Standard of Israci, and other arrangements made; but it was discovered that a sufficient number of boats could not be procured in time to convey all those to the Island who were desirous of witnessing the ceremony, and the celebration took place this day in this village, which was both interesting and im pressive. At dawn of day, a salute was fired in front of the Court House, and from the terrace facing the lake. At 10 o'clock, the masonic and military compenies assembled in front of the Lodge; and at 11, the line of procession was formed.

On arriving at the church door, the troops opened to the right and left, and the procession entered the aisles, the bend playing the grand march from Judas Maccabens. The full-toned organ commenced its swelling notes, performing the Jubilate. On the communion table lay the Corner Stone, with the following inscription, in Hebrew:

" Hear, O srael, the Lord is our God. The Lord is one." Arrarat, the Hebrew refuge, founded by Mordecai Manuel Nosh, in the month of Tisri, 5585, corresponding with September, 1825, and in the 50th year of American Independence.'

On the stone, lay the silver cups, with wine, corn and oil.

The ceremonies commenced by the morning service read emphatically by the Rev. Mr. Searl. of the Episcopal Church. "Before Jehovah's awful Throne," was sung by the choir to the tune of Old Hundred. Morning prayers—First lesson, from Jeremiah, 31st. Second lesson. sion, 97, \$8, 99, 100, 127th psalm in Ante Communion Service-Psalm in Rebrew-Benediction.

Mr. Noah then rose and pronounced discourse, or rather delivered a speech. announcing the reorganization of the Jewish government, and going through a detail of many points of intense interest, to which a crowded auditory listened with profound attention. On the conclusion of the ceremonies, the procession returned to the Lodge, and the Masonic brethren and the military repaired to the Eagle Tavern, and partook of refreshments .-The church was filled with ladies, and the whole ceremony was impressive and unique. A grand salute of 24 guns was fired by the artillery, and the band played a number of patriotic airs.

We learn that a vast concourse assembled at Tonawanda, expecting the cere-monies would be at Grand Isle. Many of them came up in carriages in time to hear the inaugural speech. The following is the proclamation, which will be sion

PROCLAMATION TO THE JEWS.

Whereas, it has pleased Almighty God, to manifest to his chosen people the approach of that period when, in fulfilment of the promises made to the race of Jacob, and as a reward for their pious constancy and triumphent fidelity, they are to be gathered from the four quarters of the globe, and to resume their rank and character among the governments of the earth. And whereas, the peace which now prevails among civilized nations, the progress of learning throughout the world, and the general spirit of liberality and toleration which exists, together with other changes, favorable to light and to liberty, mark in an especial manner the approach of that time when " peace on earth and good will to man' are to prevail with a benign and extended influence, and the ancient people of God, the first to proclaim his unity and omnipotence, are to be restored to their inheritance, and enjoy the rights of a sovereign, independent people. Therefore, I, MORDECAI MANUEL NOAH, a Citizen of the United States of America, late Consul of the said States for the city and kingdom of Tunis, High Sheriff of New York, Counsellor at Law, and by the grace of God Governor and Judge of Israel, have issued this proclamation;

enjoy that peace, comfort and happiness, which has been denied them, thro' the intolerance and misgovernment of former ages; an asylum in a free and powerful country, where ample protection is secured to their persons, their property, and religious rights; an asylum in a country remarkable for its vast resources, the richness of its soil, and the salubrity of its climate; where industry is encour aged, education promoted, and good laith rewarded; "a land of milk and honey, where Israel may repose in peace, under his "vine and fig tree," and where our people may so familiarize themselves with the science of government, and the lights of learning and civilization, as t qualify them for that great and final res toration to their ancient heritage, which the times so powerfully indicate.

The asylum referred to is in the state of New York, the greatest state in the American confederacy. New York contains 43,214 square miles, divided into fifty five counties, and having six hundred and eighty-seven post towns and cities, containing one million five hundred thousand inhabitants, together with six million acres of land, improvements in agriculture and manufactures, in trade and commerce which include a valuation of three hundred millions of dollars of taxable proper ty. One hundred and fifty thousand mili

tia, armed and equipped; a constitution founded upon an equality of rights; having no test oaths, and recognizing no religious distinctions, and seven thousand free schools and colleges, affording the blessings of education to four hundred thousand children of every religious denomination. Such is the great and inreasing State to which the emigration of the Jews is directed.

The desired spot in the state of New York, to which I hereby invite my below ed people throughout the world, in com mon with those of every religious denomination, is called GRAND ISLAND, and on which I shall lay the foundation of a

bounded by Ontario on the north, and our seminaries of learning and institu Erie on the south, and within a few miles tions of charity in every part of the world, of each of those great commercial lakes. The island is nearly twelve miles in and virtue may permanently prevail length, and varying from three to seven among the chosen people. miles in breadth, and contains upwards of seventeen thousand acres of remarkably rich and fertile land. Lake Erie is about two hundred and seventy miles in length, and borders on the state of New York, Pennsylvania and Ohio; and westwardly by the possessions of our friends and neighbors, the British subjects of Upper Canada. This splendid lake unites itself by means of navigable rivers, with lakes St. Clair. Huron. Michigan and Superior, embracing a lake shore of nearly three thousand miles; and by short canals, those vast sheets of water will be connected with the Illinois and Mississippi rivers, thereby establishing a great and valuable internal trade to New Orleans and the Gulf of Mexico. Lake Ontario to the north, is one hundred and ninety miles in length; and empties into the St. Lawrence, which passing through the province of Lower Canada carries the commerce of Quebec and Montreal to the Atlantic Ocean

Thus fortified to the right and left by the extensive commercial resources of the great lakes and their tributary streams -within four miles of the sublime falls of Niagara, affording the greatest water power in the world for manufacturing purposes,-directly opposite the mouth of the grand canal of three hundred and sixty miles inland navigation, to the Hudson river, and city of New York, having the fur trade of Upper Canada to the west, and also of the great territories towards the Rocky mountains and the Paread with great attention and interest. and improving advantages. Deprived as our people have been for centuries of a right in the soil, they will learn with peculiar satisfaction, that here they can till the land, reap the harvest raise the flocks which are unquestionable their own; and in the full and unmolested enjoyment of their religious rights, and of every civil immunity, together with peace and plenty, they can lift up their voice in gratitude to him, who sustained our fathers in the wilderness, and brought us in triumph out of the laud of Egypt; who assigned to us the safe keeping of his oracles, who proclaimed us his people, and who has ever walked before us, "like a cloud by day and pillar of fire by night." In his name do I revive, renew and re-

And I hereby enjoin it upon all our pious and venerable rabbis, our presidents and elders of synagogues, chiefs of colleges, and brethren in authority throughout the world, to circulate and make known this my proclamation, and to give it full pub-licity, credence, and effect.

It is my will that a census of the Jews throughout the world be taken, and returns of persons, together with their age and occupation, be registered in the archives of the Synagogues which they are accustomed to worship, designating such in particular, who have been and are dis-tinguished in the useful arts, in science, or in knowledge.

Those of our people who from age, lor cal attachment, or from any other cause, prefer remaining in the several parts of the world which they now respectively inhabit, and who are treated with liberality by the public authorities, are permitted to do so, and are especially recommended to be faithful to the governments which protect them. It is however, expected, that they will aid and encourage the emigration of the young and enterprising, and endeavor to send to this country, such who will add to our national strength and character, by their industry, honor and patriotism.

Those Jews who are in the military employment of the different sovereigns of Europe, are enjoined to keep in their ranks until further orders, and conduct themselves with bravery and fidelity.

I command that a strict neutrality be observed in the pending war between the Greeks and the Turks, enjoined by considerations of safety towards a numerous population of Jews now under the oppressive dominion of the Ottoman Porte.

The annual gifts which for many cen-turies have been afforded to our pious brethern in our Holy City of Jerusalem, City of Refuge, to be called ARARAT. to which may God speedily restore us, Grand Island in the Niagara river, is are to continue with unabated liberality; are to be increased, in order that wisdom

I abolish forever Polygamy among the Jews, which without religious warrant, still exists in Asia and Africa. I prohibit marriages, or giving Keduchim, without both parties are of a suitable age and can read and write the language of the country which they respectively inhabit, and which I trust will ensure, to their offspring, the blessings of education, and probably the lights of science.

Prayers shall forever be said in the Hebrew language, but it is recommended that occasional discourses on the principles of the Jewish faith, and the doctrines of Morality generally, be delivered in the language of the country, together with such forms which without departing from the ancient faith may add greater soiem-

nity to our worship.

The Caraite and Samaritan Jews, together with the black Jews of India and Africa, and likewise those in Cochin China, and the sect on the coast of Malabar, are entitled to an equality of rights and religious privileges, as are all who may partake of the great covenant, and

We can't, however, acknowledge the truth of this kind of logic: we must have better reasoning than this, to sathly us that private banking never has done, and never will do, any mischief. PROS THE WHEELING GAZETTE, THE GREY EYE. Poets have prised the eye of black,
And eulogised the racting blue,
Have laid their fancy on the rack,
To celebrate each varied hue;
But not one single word they say,
About the pleasing eye of grey.

I like the mild grey eye—the faces
I most have loved, had eyes of grey; And if each glance emits no blazes, As those of black, I know that they Possess a charm that can subdue Hearts that withstood both black and blue.

The fair is fair, with eyes of black-With eyes of grey, is still more fair;
For what the last in life may lack,
Is made up by the softer air,
Imparted to the lovely faces,
That grey and blue so often graces.

The black may pierce the gazer through, And make the lighted spirits dance; Our souls may melt before the blue,
Or die away in pleasure's trance;
But I will still my homage pay
To the enchanting eye of grey.

The eye that kindly beams on me, Shall always meet a like return: And I will bend the ready knee, Where'er those glances melt or burn; And idolize the lovely hue, Whether of grey, or black, or blue,

LONDON, AUG. 12. We received last night, Brussels papers to the 11th August. That political coxcomb, the Autocrat of the Russians, has it seems, issued an edict to compel the Jews to reside in the interior, as they are the persons chiefly engaged in smuggling. So long as the duties on importation are high enough to make smuggling profitable, there will be no want of Christians to supply the place of the Jews, otherwise Russian Christians must be of a very different stamp from all the christians with which we are acquainted. The traders of the United States do not rank very high in point of principle, but we never hear of their smuggling-and why?-because the duties are not so high as to make it worth a man's while to smuggle. BANKS are every where a curse, when resorted to by an agricultural people, for ordinary borrowing of money. The farmer who goes into a bank, except on some special emergency, hardly ever gets out of it, unless by the sale of his property. DYSPEPSIA. In consequence of a sedentary life, I have for many years been afflicted with the fashionable complaint denominated dyspepsia. Its symptoms and effects were-fatulence, acrid eructations, and head-ache; prostration of the spirits, rendering the nervous system extremely sensitive, and producing incipient and ephemeral hypochondriasis. I attributed it to the action of some acrid humor on the nervous coat of the stomach, which disqualified the whole organ for its usual healthful action. How this humor was produced, was to me mysterious. I supposed it to be the consequence of sedentary employment, and brought on thus: Insufficiency of bodily exercise to give tone and vigor to the animal functions; the stomach, of consequence, became relaxed and enervated, and unable to operate with sufficient energy on some substances taken into it as food. This substance, lying undigested, under-went a species of fermentation, and the product of this fermentation acting on the relaxed and unnaturally tender coats of the stomach, produced a species of inflammatory action in the nervous coat, and hence the symtoms and effects above described. I have said nothing about the action of the mind, (which was kept in a state of vigorous exercise) nor its effects, believing that it operates perniciously only on enfecbled organs. I may be right, and probably am wrong, in my pathological deductions ; but in the following antidote, I believe I am not far out of the way .- From my reflection on my own case, I concluded that some one of the GUMS would be a proper prescription. I took a small pill of Assafætida, and was successful beyond my most sanguine expectations. The flatulence subsided, and carried with it ALL of its unwelcome attendantshead-aches, costiveness, &c. Whenever I feel any symtoms of this troublesome disease now, I take a pill of Assafeetida, and in a moment all is well. It is a cheap medicine : get 64 cents worth of the gum, and when you have occasion to take it, break off about the size of a common pill and swallow it. I ought to have mentioned, that I am convinced this disease is not one of long duration; but, on the contrary, one of mere momentary existence; brought on by circumstances of the moment, and recurring as often as those circumstances recur. Therefore the remedy proposed does not offer security against future attacks, nor does that taken today relieve us from the attack of tomorrow. In saying that I believe it to be of momentary existence merely, I mean, that, though it may be cured to-day, it may recur tomorrow; but it is not tomorrow a continuance of the disease of to-day; it is a fresh attack caused by the existence or recurrence of dyspepsia, and will, most certainly, produce a permanent disease; but this permanent disease is not dyspepsia any more than consumption is a common cold, any more than the lock-jaw is the simple puncture of the nail, or than the fruit is the simple seed from which it grew. The paragreles consist of poles 40 feet high, placed 500 feet from each other, to which conductors are attached. Great ravages are frequently occasioned to the vineyards by hail storms; and it is asserted that these conductors, by depriving the hail clouds of their superabundant electricity, will cause their contents to descend either in snow or rain.

guished fellow-citizens, during the course of the year now elapsed, upon your arrival at their respective places of abode, to greet you with the welcome of the nation. The less pleasing task now devolves upon me, of bidding you, in the name of the nation. Adieu:

It were no longer reasonable, and would be superfluous to recapitulate the remarkable incidents of your early life-incidents which associated your name, fortunes and reputation in imperishable connexion with the independence and History of the North American Union.

The part which you performed at that important juncture, was marked with characters so peculiar, that real-izing the fairest fable of antiquity, its parallel could scarcely be found in the authentic records of human history.

You deliberately and perseveringly preferred toil, danger, the endurance of every comfort, in defence of a holy cause, to inglorious ease, and the al-lurements of rank, affluence, and unrestrained youth, at the most splendid and fascinating Court of Europe.

That this choice was not less wis than' magnanimous, the sanction of half a century, and the gratulations of unnumbered voices, all unable to express the gratitude of the heart, with has been welcomed, afford ample de- ded one more memorial to distant remonstration.

champion, had closed by the complete triumph of her cause in this country of your adoption, you returned to fulfil the duties of the philanthropist and patriot in the land of your nativity.— There, in a consistent and undeviating career of forty years, you have maintained, through every vicissitude of alternate success and disappointment, the same glorious cause to which the first years of your active life had been devoted-the improvement of the moral and political condition of man.

Throughout that long succession of time, the People of the United States, for whom, and with whom, you had fought the battles of liberty, have been living in the full possession of its fruits, one of the happiest among the family of nations.
